

# Can you afford to use anything else?

- **Fold flat all plastic, food grade containers**, optimised for logistics networks make for cost effective transportation and storage.
- Single use liners remove the need for fastidious cleaning regimes along with all the time, chemicals and energy that they involve.
- Hassle free rental plans that allow the right number of units to be on hire for as long as required and no longer.
- Competitive daily hire rates, low cost fittings and consumables.
- A range of liner options including EVOH and MetPet high barrier products, and bespoke fittings service.

When you look at the ways that the BeerCombo from Arlington can reduce production risk and cost, the answer must be definitely not!
