

There was a time when taking a beer round to your mates place to watch the footie was quite a palava!

Arlington

Helping beer drinkers since, well... quite recently actually.

Arlington Beer Carriers

As seen in
What's Brewing &
SIBA Journal

- Increase off-sales
- Speed up service at outside functions and events
- Reusable
- Robust
- Tamper evident

The 4pt beer carrier from Arlington

Designed specifically for take-out, cellar door, festival and event sales, the Arlington Beer Carrier is the ideal solution for publican and brewer alike.

Made from durable food grade, BPA free, amber film with a tamper evident cap the ABC is easy to fill and compact to store. Able to withstand high temperatures, the ABC can be easily washed with hot water for reuse and is rugged enough to cope with the rigours of general use - easily surviving the industry standard 2m drop test.

Its characteristics of design and materials ensure the quality and longevity of its contents, enabling an easy spill free pour and allowing air to be removed before re-sealing. With improved design and functionality, the ABC is suitable for most beverages without allowing skunking, loss of condition or oxidation.

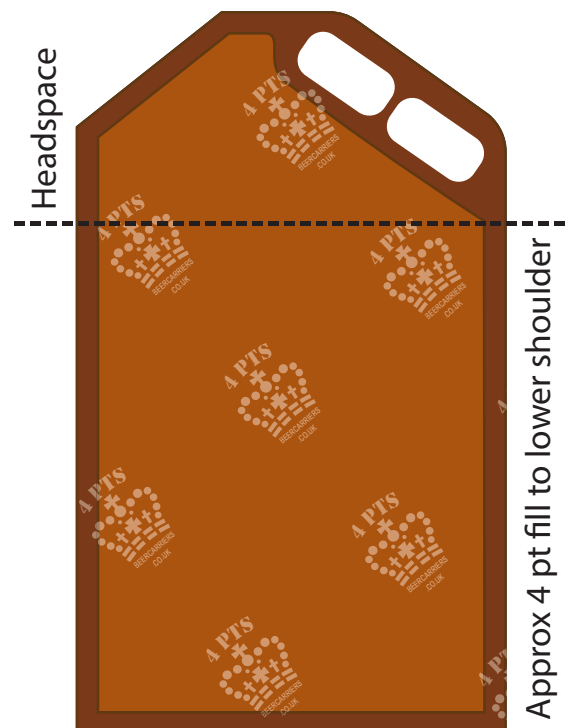

Exceptionally small
storage and transport
footprint

180 = 90gal

The 4pt ABC has an MOQ of just 10, so for more information, prices, or to order online visit our website at:
